Download Starter HTML
Compulsory & Important

Please use this Github link to download the starting HTML file(s) that you will need to write code in this section.
<mark>Please download files before watching the lecture.</mark>

For CSS Part 2, there are 3 files you need to download.

Prerequisites - If you don't have a Github account, Please sign up on
https://github.com/ using any email address. And keep the account logged in.

Please download all the HTML files in this folder :
https://github.com/apna-college/Delta/tree/main/CSS/Chapter2%20(Selectors)

To download each file (as mentioned in the chapter) :
- Click on file name
- On the right hand side click on the <u>download raw file</u> button.

In this way, the file will be saved in your system & you start making changes to it.

For More Help : Watch the screen recording given next.
